NEAR DEATH'S DOOR.

Justice Miller, of the United States Supreme Court, Nearing the End of Life.

WASHINGTON, Oct. 13.—Justice Miller's family and a number of friends were anxious watchers at his bedside all through the night, expecting that the end might come at any moment. But little change in the sick man's condition was noticed during the night. His sturdy condition seems to continue the unequal struggle against death long beyond the time it was thought possible for him to survive the fatal stroke. This morning his breathing is so rapid and difficult that his death is momentarily expected. His face shows plainly the well known marks of paralysis, being drawn out of natural shape and discolored by the diffusion of blood. Unconscious and propped up in bed, with the organ of respiration filling with phlegm, it is felt that vitality cannot much longer resist the strain and that the end must come soon.

At 11 o'clock this morning the robust form of the justice, lying utterly unconscious, was hovering between life and death. Doctors Lincoln and Cook express surprise at the tenacity with which the patient clings to life. Mrs. Touzalin, a daughter of the justice, will arrive in Washington from Omaha tomorrow afternoon, as will also his niece, Miss Corkill. Professor Wilson, who has charge of the sick room, said this morning that no arrangements for the funeral had yet been considered. The whole matter, he said, would be determined upon at a meeting of the supreme court, after which the family arrangements would be made.

The October term of the United States supreme court opened to-day. The court met at noon, but owing to the critical condition of Associate Justice Miller, at once adjourned.

At 1:30 p. m. the physicians report no change in the condition of Justice Miller.

Associate Justice Miller is the oldest judge in continuous service upon the bench of the United States supreme court and was appointed by President Abraham Lincoln in 1862 from Iowa. He and Mr. Lincoln were great friends, personally and politically, and it was largely through the efforts of the former that Lincoln was nominated at the national convention in 1860. Justice Miller came to the bench as a profound lawyer and in his twenty-eight years service has added lustre to the national ermine by his strong decisions and legal opinions.

Originally an old whig he early identified himself with the republican party, and greatly through his labors Iowa cast off the democratic party harness in 1854-5, and has become a staunch sister in the republican column. Of all the United States supreme justices none have been more loved and revered than Justice Miller. He is over seventy years of age. He was stricken with paralysis last Friday while on his way to his home.

HALL'S HEROISM.

Hung to the Train While Both of His Legs Were Cut Off.

DAYTON, Ohio., Oct. 13.—Daniel C. Hall, a teamster of this place, in an attempt to mount the platform of a train, missed his footing and fell with his legs under the wheels. In an endeavor to get his legs out of their perilous position and while holding to the platform, his left foot caught between the main rail and that of a switch, and the leg was torn from the socket at the knee. Still clinging to the platform his right leg was thrown under the wheels and, from the knee down, was ground into a shapeless mass. When the train was stopped and he was rescued, he was still clinging to the platform with a tenacious clutch. It was necessary to amputate the right leg below the knee and the left onebelow the torn ligament. Despite his injuries and loss of blood and the shock, there are chances of his recovery.

HE WAS ALREADY MARRIED.

A Missing Bridegroom is Found With a Wife and Family.

ERIE, Pa., Oct. 13.—A few months ago John Brandenburg, a well-to-do mechanic, won the affections of Miss Ida Schwatzler, and their wedding day was fixed. Brandenburg assisted in the preparations for the wedding, but, when the hour arrived he did not materialize.

After months of waiting the missing bridegroom was found with his wife and seven children in the vicinity of Lancaster. He was brought to this city.

Under the Tariff Law.

WASHINGTON, Oct. 13.—Assistant Secretary Spaulding, of the treasury department, in construing the fruit paragraphs of the new tariff law, decides that "it is only fruits that are not otherwise enumerated or provided for in the tariff act that come within the scope of the provision in the free list." He also decides that grapes are dutiable at the rate of sixty cents per barrel of three cubic feet capacity, and plums, whether green or otherwise, at the rate of two cents per pound.

The Weather.

WASHINGTON, Oct. 13.—For Indiana: Threatening weather and heavy rains, southerly, shifting to westerly winds, colder.

SEVERE FIGHTING

Between the British and Maftis Near Lindi.

ZANZIBAR, Oct. 13.—Severe fighting is reported to have occurred between the Germans and Maftis in the vicinity of Lindi. It is reported here that British gun boats have entered the Zambesi river unopposed by the Portugese fleet stationed there.

The sale of intoxicants, wine and beer, along the coast lines has been forbidden by the German authorities. Heavy penalties are attached to a violation of the order.

SHANGHAI, Oct. 13.—The increased tax levied by the government on native opium has aroused much opposition, and the attempt to collect the impost has led to rioting in different parts of the country. At Hoihow many persons while engaged in one of these riots were killed. At Liang-Hu the viceroy refuses to permit the collection of tax within his jurisdiction.

LONDON, Oct. 13.—J. E. Thorold Rogers, M. A., professor of political economy at the University of Oxford, died to-day.

PRAGUE, Oct. 13.—Another of the supporting columns of the Carls bridge which was seriously damaged by the recent heavy floods, collapsed to day, severely injuring six laborers.

LISBON, Oct. 13.—The royal family will return to the capital to-day and a cabinet council will be held, at which it will be decided whether or not a prolongation of the session of the courts shall be had. The new cabinet is politically independent, none of its members being committed by party affiliations or obligations.

HIS HOUR OF DEATH

Predicted by a Giant Who Dies on Schedule Time.

SUMNER, Ill., Oct. 13.—William Peters, of Lukin township, died in the morning. He was without doubt the largest man in the country, his weight being 400 pounds. The immediate cause of his death was gangrene of the lower extremities. Thursday he requested that the undertaker order a coffin for him, saying he was going to die at 6 o'clock a. m. Friday; that there were no coffins large enough for him here and one would have to be made.

The undertaker at once ordered one, and it came on the midnight train. It was one of the largest ever sent out, being six feet long, twenty-four inches wide and twenty-two inches deep. Within twenty minutes of the time he predicted he expired. His age was forty-seven years.

PILSENERS CHAMPIONS.

The City League Games Closed and the Prize Awarded.

The City league base games have closed. The game between the Pilseners and North Waynes yesterday resulted in favor of the Pilseners, by a score of 6 to 1, in five innings, the game then being called on account of rain. Collars and Heit were the battery for the Pilseners, and Basse and Penso for the North Waynes. According to the decision of the directors the Kaisers were deprived of a chance for the pennant on account of playing a professional battery in a recent game. This gives the first money to the Pilseners, second place to the North Waynes and third place to the Dortmunders.

The Sports defeated the Stars yesterday 14 to 11. Ronner and Coley were in the points for the Sports and Patterson and Lauer for the Stars.

STRICKEN SUDDENLY.

Gen. Belknap, Ex-Secretary of War, Found Dead in His Bed at Washington.

WASHINGTON, Oct. 13.—Gen. Wm. W. Belknap was found dead in bed this morning in his room in the Evans building on New York avenue in this city. The room in which he was found joined his office rooms and was only occupied by the general during his wife's absence from the city. Gen. Belknap was seen alive on Saturday night about midnight when he was on his way to his rooms, apparently in excellent health. Mrs. Belknap, who is in New York, has been notified of her husband's sudden death.

Gen. William Worth Belknap was born in Newburg, N. Y., on September 28, 1829. He graduated at Princeton college in 1848 and 1851 he moved to Keokuk, Iowa, where he practiced law. Gen. Belknap served during the war beginning as major and at the close was general. In October, 1869, he was appointed secretary of war. This office he retained during General Grant's second administration. The coroner's jury showed that the general suffered from fatty degeneration of the heart and that the immediate cause of his death was inflammation of the heart.

WASHINGTON, Oct. 13.—The news of the sudden death of ex Secretary Belknap was received at the war department with genuine sorrow. General Belknap was a very popular official when he was at the war department. The usual marks of respect will be paid to his memory by the war department. The department will be closed on the day of his funeral. It will be draped in mourning for thirty days. Acting Secretary of War Grant will issue the official order as soon as the funeral arrangements are perfected.

DEATHS AND FUNERALS.

Death of Mrs. Patrick Shea, a Pioneer Lady--Other Deaths.

The two-days old son of Mr. and Mrs. E. S. Breese, of 217 Broadway, died Saturday night and was buried yesterday morning.

Joseph, son of Dennis Murphy and wife, of 51 Prince street, died Sunday morning at 6:10 o'clock, of lung fever and bronchitis. The deceased was an unusually bright child and was one year and seven months old. The bereaved father is a switchman in the Nickel Plate yards. The funeral will take place Tuesday morning at 9 o'clock from the house and at 9:30 from the Cathedral.

Mrs. Mary Shea, wife of Patrick Shea, died at her home in New Haven, this county, Sunday, of lung fever. The deceased was sixty-three years old and was for thirty-five years a resident of New Haven. She was the mother of five children, Michael F., Margaret, Dennis, Daniel and Julia, three of whom live at home. These children and a husband survive her. Dennis was a former operator in the Wabash office in this city, and Michael F., resides at 421 South Calhoun street, and is the well-known engineer on the Fort Wayne road for twenty years past. The funeral will take place Tuesday morning at 9 o'clock from the St. Johns Catholic church, New Haven.

A MERCHANT SHOT DEAD.

His Lifeless Body Discovered With a Charge of Buckshot.

JACKSON, Miss., Oct. 13.—Tilly M. Lowis, a prominent citizen and merchant of this county, was assassinated last night, while standing in the yard of his residence at Clinton, ten miles west of here. The report of a gun was heard and his dead body was found with a load of buckshot in it. No further particulars could be obtained than this mere statement, and the fact that Clinton had telephoned for bloodhounds to put on the track of the perpetrator of the deed.

Lewis was a well-known and popular citizen, not unknown in politics, and his death will make a sensation. He was forty-eight years old and a man of family.

HIS WORTH RECOGNIZED.

David McKay Engaged to Judge Cattle at the Fat Stock Show.

David McKay, of Brookside farm, who has been exhibiting the Galloway cattle of Hon. J. H. Bass around the country, is in receipt of a letter from Senator LaFayette Funk, of Illinois, who is president of the Fourteenth district state board of agriculture. President Funk says: "I am so pleased with your services at Peoria that I would like to engage you to judge cattle at the coming Illinois fat stock show." It is quite a recognition, and one well placed, too. Mr. McKay will accept.

IT WAS A BURGLAR.

The Graffe Residence on West Jefferson Street Entered at Night.

Last night the residence of the family of the late George W. Graffe, at 26 West Jefferson street, was entered by a burglar, who gained access to a sleeping apartment in the second story by means of a ladder. In this room slept Julian Graffe, a lad. He was awakened by a noise, occasioned by the burglar falling over a chair, and quickly aroused the family. The intruder fled. It would be wise for householders to secure the windows at night.

PLUNGES DOWN A CLIFF

To the Rocks Below--The Deed of a Woman Crazed From the Effects of Liquor.

NEWPORT, R. I., Oct. 13.—Yesterday afternoon at the foot of the forty steps on the cliff, a well dressed woman was found under the influence of liquor. She was taken to the police station, and was released at night. She declined to give her name on account of her husband.

Chief of Police Turner took her to St. Mary's rectory, where she signed the pledge. She begged everybody to keep the matter private for her husband and children's sake. No one seemed to know her.

She claimed that the reason she went to the cliffs was because her husband had refused to let her into her own house. This morning the lifeless remains of the woman were found near the spot where she was discovered yesterday.

Her head and knee were badly cut and it is supposed that she threw herself from the embankment while in a despondent mood. She proved to be the wife of Walter Bussey, a well-known New York man. She was only twenty-nine years of age.

WOMAN KILLED BY BOYS.

They Demand Her Money in Dime-Novel Fashion and Shot Her.

WASHINGTON, Pa., Oct. 13.—Mrs. Elizabeth Sanders, the toll-gate keeper and postmistress, who was attacked by masked ruffians at the door of her home in Toledo, Pa., on Friday night, and shot in the abdomen, is dead.

Shortly after last midnight Constable James S. Hammond arrived in Washington, from Canonsburg, with Ed. Durr, the third supposed party to the crime. He is only sixteen years of age. He was immediately taken to the sheriff's office, where he had made a confession in which he implicated the two fellows arrested yesterday—Bush Durr and George E. Teaters, from Cassville, W. Va., and Wheeling Island, respectively.

Durr said in substance in his confession that the three fellows had been coming along the pike, near Little Toledo, when the rain came up and they got over the fence and crawled under the corn-shocks. Shortly after that they worked their way up to a hay-stack and stood under it until dark. Then Teaters and Ed. Durr went to the house, Bush refusing to go. Teaters knocked at the door of Mrs. Sander's house and when she opened it, pushed the revolver into her face, demanding her money or her life.

The woman held in her hand a lamp, and being somewhat frightened, her hand trembled, knocking the chimney against the revolver and breaking it. The flame went out, leaving the party in total darkness. Teaters tried to strike a match, but was unsuccessful. By this time Mrs. Saunders had procured her revolver and opened fire on the ruffians. The lad who made the confession, hastily left and went to the haystack, and after five shots had been fired, one of which ultimately killed the woman, Teaters joined him. Altogether, it is a clear case of too much dime novel reading of the Jessee James sort.

NINETY IN THE SHADE

At Cincinnati and Two Prostrations From the Heat.

CINCINNATI, Oct. 13.—Sunday was an extraordinary day here. It seemed as if a hot cloud hovered above the city. The heat was oppressive and the thermometer registered 90 ° in the shade. Two prostrations from the heat were reported during the day. This high temperature is all the more remarkable from the fact that it has been so cold for the past fortnight that fires were indespensible. The heat disappeared as suddenly as it came toward night.

BARN BURNED.

Property of James Weaver Swept by Flames--Serious Loss.

Word was brought to the city to-day of a serious fire which swept the barn and out-buildings on the premises of James Weaver, in Lafayette township. A large quantity of hay and grain was consumed and also agricultural implements. The live stock was barely saved. The loss is partially covered by insurance placed with the Ohio Farmers' company.

Say It is Not True.

WASHINGTON, Oct. 13.—The sensational report which was telegraphed from Washington to a New York newspaper on Saturday concerning the alleged conspiracy of the census officers to make a whole sale falsification of the population of the different states in the interest of the republican party and against the interest of the democratic party is pronounced absurd here by the intelligent men of both parties. Such a wide reaching conspiracy would be an impossibility in this country. It would require the connivance of so large a number of conspirators as to insure a leakage or betrayal somewhere.

Mrs. Hendricks' Present.

NEW YORK, Oct. 13.—Mrs. Thomas A. Hendricks has presented the Thomas A. Hendricks club, of Brooklyn, with an oil painting of the late vice-president.

The contracting parties have a host of friends to tender congratulations. Mr. and Mrs. Green will go to housekeeping at once, and will forego the wedding trip. An interesting coincidence of the hymenial contract is that it occurs on the groom's twenty-eighth birthday.

At the residence of Mrs. Louisa Austin, corner of Brackenridge and Webster streets, last Saturday afternoon Pastor Stephen A. Northrop united in marriage Miss Georgia, daughter of Conductor George Hendrix, to Clarence K. Austin, a young brakeman on the Fort Wayne road. Mr. Austin is a respected and promising young man. Eleven years ago Maggie, the sixteen-year-old daughter of Michael Twomey, a respected citizen of Logansport, suddenly disappeared from her home. No trace of her whereabouts was ever gained and she was given up as dead. Saturday night, however, she appeared at her father's residence, a raving maniac. She was taken in, but can give no account of herself or her wanderings. She is very violent and it became necessary to place her in confinement. Nothing has been discovered about her giving the faintest clew to the mystery of her disappearance and long absence.

DAMAGES DEMANDED!

Elizabeth E. Porter Sues the City on Account of Injuries---Cullings From the Courts.

A voluminous complaint has been filed in the superior court, in which the city of Fort Wayne is made the defendant in a suit for $15,000 damages. The plaintiff, Elizabeth E. Porter, was injured some weeks ago, while selling produce at a stall in the market place. The huge steam roller came snorting like some demon down the crowded market space, caused confusion among the horses, and the team attached to Miss Porter's wagon was terrified among the rest. They backed the vehicle, pinning the plaintiff between the wagon and a market bench, and inflicting injuries which it is believed by by her will make her a cripple and invalid for life. Negligence is charged up against the city for permitting the machine to be run through crowded thoroughfares, especially when uncalled for as in the above instance. Swayne & Doughman penned the complaint.

COURT CULLINGS.

Emeline Schiefer, through her attorneys, Coleriek & Oppenheim, enters suit for divorce from George Schiefer. Abandonment and failure to provide are alleged. Among other things the complaint charges the defendant with refusing to come to the bedside of his dying son, George, in March, 1886. The parties were married in April, 1883. The plaintiff asks for the custody of her son, Lawrence.

WE labor and labor, but there is just as much necessity for recreation as for labor. We cannot live without it—not even the laboring man. Exercise is all well enough, but it must be of the right kind. The mind as well as the body wants exercise; but it wants something else, as well as the body. It wants a change; it wants to get into a new channel, to get new life infused into it. Thus it will rest the limbs to labor; it will rest and strengthen the mind to be diverted. We should lay out our plans for recreation as well as for work. There never was a truer saying than that "all work and no play makes Jack a dull boy."

Down in Raleigh the other day a colored man who had done some work for the city called at the collector's office for his pay. His certificate was O. K.'d, and the auditor called to his clerk to issue a warrant for the colored man, meaning, of course, for the amount due, when, with his eyes bulged out, exclaimed: "For de Lord's sake, boss, don't get no warrant for me. I'clar ter gracious, I ain't done nothin' "

AMERICAN naval officers who adopted the cholera belt in the tropics find it so beneficial that they often retain it in all latitudes. It is simply a broad land of flannel worn night and day the year around tight about the waist, so as to protect the stomach from sudden changes of temperature. It is an excellent preventive of stomach disorders.

COFFEE ground in an old mill makes better coffee than when ground in a new mill; the older the mill the better. An old mill crushes the berry, while a new mill cuts it. The crushing of the berry releases that which gives out the aroma; the cutting does not do that. In the East (Turkey, etc.) the coffee is bruised to an impalpable powder in a mortar—thus releasing all the essential oil in a berry.

THE wedding bells are heard again and they are ringing merrily.

THE rain last evening had the effect of making a small attendance at the city churches.

THE republicans of Knox and Pike counties have nominated S. D. Weaver, of Knox, for joint senator.

PRESIDENT HARRISON spent Sunday at his old home in Indianapolis and left for Washington this morning.

THE base ball season in this city is at an end. It is announced that the game yesterday was the last which will be played in this city this season.

THERE is not a section or a line in the entire bill (the McKinley bill) that will open the market for another bushel of wheat or another barrel of pork.—James G. Blaine.

HON. C. M. DAWSON, candidate for judge of the superior court, P. B. Colerick, for prosecuting attorney and D. W. Souder, for county clerk, on the democratic ticket, have no opposition.

THE candidate of the republicans for congressman of this district certainly has a euphonious name—Jaynes Norman Babcock. His postoffice address is Hawpatch, Lagrange county, Ind.

THE Philadelphia Evening Telegram, a republican paper, says that "so far as the new tariff was proclaimed to be for the benefit of the workingman, it is a cheat and a lie." So much truth is rarely put into so little space—especially in a republican paper.

THOMAS W. PALMER, president of the World's Columbian exposition, in an interview at Chicago, positively stated that he would refuse the handsome salary of twelve thousand dollars per annum, and that he would accept the position for expenses only.

REV. NORTHROP, on account of the small attendance at the Baptist tabernacle caused by the rain, did not speak on the subject previously announced by him, "How to Empty Our City Hells," last night, but will do so at some future Sunday evening service. He however, preached a magnificent sermon, urging his hearers to seek Christ as the refuge from the storm of life.

THE rumor that an extra session of congress will be held is not looming up with any degree of clearness. Nobody seems to know where the rumor had its origin and no one has any good and sufficient reason to advance for its being originated. The only reason advanced in favor of the extra session is the one which says that the federal election bill can be passed before December if the senators are in Washington to do it. If that be true then the brief time required for the discussion and passage of the measure would not do any damage to the regular session. There would be ample time left in which to dispose of the appropriation bills. No one knows the president's mind, of course, and he may consider an extra session necessary, but he has never told any one so.

THE Railroad Reporter of this month has a cut and full account of the life and promotion of George W. Saul, now president of the Chicago and Eastern Illinois railroad. Mr. Saul was formerly general manager of the Fort Wayne, Cincinnati and Louisville railroad in this city. Mr. Saul is thirty-two years of age and the youngest railroad president in the United States.

JUDGE R. S. TAYLOR, who is always an entertaining talker, lectured Saturday evening at the rooms of the City department of the Y. M. C. A. on the subject, "The Cultivation of a Literary Taste." He handled the theme in an able manner and interested the audience in attendance. Judge Taylor is a fluent speaker and has the faculty of presenting a subject in such a way that all can understand and profit by his discussion of it. He did so in his lecture Saturday night.

IN the debate at the republican county convention Saturday on the question of whether or not to put a ticket in the field, John T. Leach, a republican speaker of considerable prominence and an employe of the Pennsylvania company, was one of the participants and made a strong speech against nominating a ticket. "Whether you nominate a ticket here to-day or not," he said, "I am going to vote for Dan Souder for county clerk. I knew him when he lost his legs and he is deserving of support and it is a credit to any community to elect such men as him to office. I am a republican, but I shall vote for Dan Souder."

COL. C. S. MILLARD, who was the manager of the Indianapolis car works, which was placed in the hands of a receiver last week, is the gentleman who, in replying to the interview of Mr. John H. Bass on the tariff question during the Cleveland-Harrison presidential campaign, said that if the Mills democratic tariff bill became a law, he would be compelled to close his manufactory and turn the 800 men out of employment. The Mills tariff bill did not become a law, but its substitute, the McKinley tariff, the republican measure, did, and it is a little peculiar, if Mr. Millard's opinions were correct, that on the eve of its passage his great works should fail. It looks very much as if the McKinley bill did it.

THE McKinley bill is from beginning to end an exclusively party scheme, deliberately, inflexibly and irresistibly forced upon the country by a disciplined and terrorized congressional majority, at the behests of wealthy industrialists who, in consideration of this service rendered, have contributed funds and influence for carrying the elections in the interest of the party now in ascendency, or more correctly, of certain party leaders. It will stand upon the statute books as the grossest and most corrupt exercise of legislative power ever perpetrated in the history of the country, and as the signal monument of a point of departure at which wealth and corrupt politics joined hands in alliance for defeating public opinion in the government of the nation.—New York Commercial Bulletin (non-partisan.)

SWALLOWED THE GNAT.

The republican camel has swallowed the gnat. It had hard work to do it, however. The gnat was willing, but the camel took it as a medicine and kicked and struggled, but gulped it down at last as a forlorn hope of saving them from defeat at the polls in November. At their county convention Saturday, by a vote of 104½ to 33½, they passed a motion not to nominate a county ticket and thus practically indorsed the "reform" ticket already nominated.

This decision was arrived at only after a long discussion in which some pretty hot words were passed between the city and country delegates. The majority of the delegates from the country came to the city in favor of nominating a straight republican ticket, but were talked out of it on the streets and at the convention by the city republican leaders who wanted to carry the Michener scheme through which was to do anything and everything to defeat the democratic candidates for the legislature and keep down their vote on the state ticket.

The scene in the convention that preceded the vote on the question of making nominations was a lively one. No sooner had Colonel Robertson finished his speech, after having been elected chairman, than W. H. Baird, of Eel River township, was on his feet with a motion to proceed with the election of candidates for the various county offices. "Ever since I came to town," he said, "I have been importuned here and there not to nominate a ticket. I want a republican ticket, straight, pure and clean. If we only want the offices, let us nominate the democratic ticket and be done with it."

This brought W. J. Vesey, of this city, to the floor and he made a vigorous speech against nominating a ticket, saying it would only divide the republican vote and end in defeat. He was followed by H. C. Hanna, John T. Leach, J. C. Kensill, Col. D. N. Foster and Judge John Morris, all of this city, and during the debate Mr. Baird arose again and made a vigorous speech, in which he got in some solid whacks at the schemes of the city fellows to run everything their own way. He said the platform of the reform party was diametrically opposed to that of the republican party and that among the candidates on the ticket were some who could not read their own platform. "This reform ticket," he said, "is made up of men who left their party for office and the farmers were not in favor of it. Twenty of the alliances of the county have voted against it, and if you endorse it here to day you will find that the republican farmers of the county will not sanction your action."

J. B. Harper, of this city, made the closing speech in favor of making no nominations and moved to amend Mr. Baird's motion by substituting for it a motion not to nominate a county ticket. By this time many of the farmer delegates had been talked out of their previous opinions and when the motion of Mr. Harper was put it was carried by a decisive vote, which is given above, and so the convention adjourned without naming a county ticket.

What the republicans hope to gain by the movement is the election of the two candidates on the reform ticket, both of whom are republicans. No democrat will allow himself to be deceived by this combination. It means an injury to the state ticket and is an attempt to capture the state legislature. If the republicans are successful in this here in this county and other counties where they are working the same scheme they will at the next session of the legislature at Indianapolis defeat Hon. D. W. Voorhees for United States senator and elect the man of their choice.

Let the democracy throughout the county be on their guard. We have an excellent county, congressional and state ticket in the field and every man on it should be elected. Our candidates for state senator, representatives, congressmen and the various county offices are conceded, even by their political opponents, to be men who are qualified in every way for the offices for which they have been nominated and Allen county should elect every one of them and send the state ticket out of the county with a largely increased majority.

HIS STRENGTH IS IN SUCCESS.

Pen Sketch of Bishop William Taylor, Now in Our City—Dr. Moffat's Sermon.

Bishop Taylor, of Africa, a sketch of whose life is published elsewhere in today's SENTINEL, spoke at the Berry street M. E. church in the morning, the Taylor university in the afternoon and at the Wayne street church in the evening. His sermons were eloquent and interesting and attended by large audiences. A number of persons were converted at each service and the meetings were productive of great good. Rev. Ross Taylor, son of the bishop who has the largest diocese in the world, himself a world-wide traveler and an eloquent orator, preached in Mr. Driver's church in the morning. His theme was, "Perfection." His three points were Love, Loyalty and Trust.

William Taylor is not a great preacher, but is a man gifted with wonderful power in bringing souls to Christ. He built up a reputation by making a success of everything he undertook. He was born in Rockbridge county, Virginia, and will be seventy years old next May. He was brought up as a farmer and tanner and became a Methodist preacher in 1842. During the gold excitement in California the M. E. church made a request for missionaries to go into that field and Mr. Taylor responded and commenced work in the city of San Francisco in 1849. He preached for seven years on the streets in San Francisco with great success. He went to Europe in 1862, spending seven months in evangelistic work in the British islands. For the next three years he conducted missionary services throughout Australia, Tasmania and New Zealand. He afterwards visited South Africa and converted many of the Kaffairs to Christianity. He next went to the West Indias, visited Australia a second time and spent some time in Ceylon, crossing over to India in 1872, when within four years he succeeded in establishing self-supporting churches in Bombay, Poonah, Jubbulpore, Agra, Calcutta, Madras, Baugalore, Secunderabad and elsewhere. As a result of his labors the South India conference and the Madras conference has been organized. In 1878 he established self-supporting missions in Aspinwall, Callao, Iqieque, Coquimbo, Santiago, Concepcion, Pernambuco and Para. On the 22nd of May, 1884, he was elevated to the episcopal office under the title of missionary bishop of Africa. Going to Central Africa he established a chain of thirty-six mission stations on the Congo, extending 1,200 miles, and 890 miles along the west coast and employing seventy missionaries, who are supported by voluntary contributions. In 1888 Bishop Taylor returned home and has resided in this country ever since—not resting, but going about spreading the glorious news of salvation.

DR. MOFFAT'S SERMON.

The quarterly communion services at the First Presbyterian church yesterday morning were of an interesting character. Four persons were taken into full membership with the church and after the sermon the sacrament of the Lord's supper was administered. The sermon of Rev. Dr. Moffat was appropriate to the occasion and was preached from the text, "My meditations of Him will be Sweet; I will be Glad in the Lord."

The Son of God, he said in substance had not come to earth to seek riches; He enjoyed unbounded wealth, the richest treasures of Heaven, in the home He had left. He did not come to mingle with men to enjoy titles of distinction and honor and power; He was the Son of God, the Prince of Heaven, and as such had higher honors than it was ever possible to win upon this earth. He did not come to enjoy the pleasures of the world; He had unending pleasures assured Him in the paradise of Heaven. Why then did He come to earth? What was the motive that prompted God to send His dearly beloved Son to earth to suffer trials and persecution and death at the hands of men?

Christ was born in obscurity. The wife of a poor carpenter brought Him as a son of man, into this world. He lived His babyhood, His boyhood, His young manhood much the same as the other poor children of His time, and when He arrived at man's estate followed the profession of a carpenter, laboring with His father in his daily toils. His life in infancy, in boyhood, in young manhood, was a model one, and when at the age of thirty, He began preaching, He was the most perfect type of manhood ever seen upon this earth. The doctor followed the Savior of men in His earthly career, told of His sacrifices in the wilderness, His temptations by the devil, His preaching to the people, His wonderful cures of the diseases of men, His miracles, His matchless sermons, His agonizing death upon the cross and His appearance after crucifixion to His apostles. All this he said Jesus had passed through, not that He might satisfy a worldly ambition, for He had honors in Heaven far above these, but that He might save men and women from the consequences of their sins. He did this for the love He bore for men and that we might enjoy with Him the bliss of paradise throughout the endless ages of eternity. Such love demanded our love in return. We should love God because God first loved us, and continuing the speaker said many other things, of which the above is only an imperfect skeleton, urging his hearers to lead Christian lives, that it would be interesting here to quote. The sermon was a grand one and abounded in rich thoughts appropriate to the communion services which followed.

Sons of Veterans.

ST. JOSEPH, Mo., Oct. 11.—The Sons of Veterans had made arrangements to participate in the reception to President Harrison, when State Commander Kline ordered them to drop the reception. Kline says the president's trip is clearly political, and as the organization purported to be non political, the Sons of Veterans should keep hands off. A St. Louis camp which was making preparations for a reception, was also ordered to desist.

Dyspepsia

Makes the lives of many people miserable, causing distress after eating, sour stomach, sick headache, heartburn, loss of appetite, a faint, "all gone" feeling, bad taste, coated tongue, and irregularity of the bowels. Dyspepsia does not get well of itself. It requires careful attention, and a remedy like Hood's Sarsaparilla, which acts gently, yet efficiently. It tones the stomach, regulates the digestion, creates a good appetite, banishes headache, and refreshes the mind.

Distress After Eating

Sick Headache

"I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, or did me little good. After eating I would have a faint or tired, all-gone feeling, as though I had not eaten anything. My trouble was aggravated by my business, painting. Last spring I took Hood's Sarsaparilla, which did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced." GEORGE A. PAGE, Watertown, Mass.

WHAT IS SAPOLIO?

It is a solid handsome cake of scouring soap which has no equal for all cleaning purposes except in the laundry. To use it is to value it.

What will SAPOLIO do? Why it will clean paint, make oil-cloths bright, and give the floors, tables and shelves a new appearance. It will take the grease off the dishes and off the pots and pans. You can scour the knives and forks with it, and make the tin things shine brightly. The wash-basin, the bath-tub, even the greasy kitchen sink will be as clean as a new pin if you use SAPOLIO. One cake will prove all we say. Be a clever housekeeper and try it.

MR. JOHN CHRISTEN

Gives His Reasons For Selecting the Tabor Tract as the Fair Site.

John Christen submits an opinion favoring the Tabor tract as the most desirable location for the exposition site. He says:

To the Editor of THE SENTINEL.

A few words might be said about the proper location for the exposition buildings for the benefit of all citizens and business men. My idea is that if the association could get a site for nothing it would not be proper to take it, if it is not in the proper place. So, therefore, I see the only place is the Tabor tract providing it can be had, and my reasons are as follows:

1st. It is the nearest to the city and a great many can walk to it as the sidewalks over the Lakeside are and will be in excellent condition, and a great many people cannot afford to take their family of five or six and pay 25 or 30 cents street car fare and 25 cents each to go in the fair grounds.

2nd. There will be an electric street car line running over through Lakeside to the fair grounds, whether the Taber's place be used or not, as if held elsewhere, where the street car has to be built, it would not pay the investment to run the cars only when the fair grounds are used.

3d. It is away from the railroads, where the people must go through the town if they want to go to the fair grounds. At the old grounds, west of the city, the people are unloaded by the thousand and never come into the city. Don't you see that is no benefit for the business men, as most of the stockholders are business men?

4th. There could be a foot bridge built over the river east of the city and will be still nearer for all the people living east and southeast of the city.

5th. A straight road from Columbia street out and a fine drive on both sides of the land.

6th. It is the most beautiful of all, the land has a nice high woods that can be fixed up to a beautiful grove. It has also a few acres of low ground that can be turned into a beautiful lake, combined with the Lakeside three lakes, making the four lakes a nice sheet of water, if it is properly arranged. So by having the exposition building, race track, grove and lake combined together, then you will have everything necessary. By doing so the fair association need not be ashamed of advertising their grounds any time during the summer for excursions to come here and find everything necessary for a pleasure resort, and in case of rain they will have a large building to go in and amuse themselves the balance of the day. Now a few words might be said about the land. It is an expensive piece of ground, $50,000 cash for 160 acres, if I am not mistaken. The question is, could it be bought, and use about 110 acres for the purpose, and lay out fifty acres in half-acre lots, and sell them for about $500 each, and realize $25,000 out of it, as I don't believe in putting $15,000 or $20,000 buildings on somebody else's land, by leasing it. Now, stockholders, consider the matter over before you vote for a site, as this is a matter for all time, not a few years.

JOHN CHRISTEN.

NEAR DEATH'S DOOR.

Justice Miller, of the United States Supreme Court, Nearing the End of Life.

WASHINGTON, Oct. 13.—Justice Miller's family and a number of friends were anxious watchers at his bedside all through the night, expecting that the end might come at any moment. But little change in the sick man's condition was noticed during the night. His sturdy condition seems to continue the unequal struggle against death long beyond the time it was thought possible for him to survive the fatal stroke. This morning his breathing is so rapid and difficult that his death is momentarily expected. His face shows plainly the well-known marks of paralysis, being drawn out of natural shape and discolored by the diffusion of blood. Unconscious and propped up in bed, with the organ of respiration filling with phlegm, it is felt that vitality cannot much longer resist the strain and that the end must come soon.

At 11 o'clock this morning the robust form of the justice, lying utterly unconscious, was hovering between life and death. Doctors Lincoln and Cook express surprise at the tenacity with which the patient clings to life. Mrs. Tounalin, a daughter of the justice, will arrive in Washington from Omaha tomorrow afternoon, as will also his niece, Miss Corkill. Professor Wilson, who has charge of the sick room, said this morning that no arrangements for the funeral had yet been considered. The whole matter, he said, would be determined upon at a meeting of the supreme court, after which the family arrangements would be made.

The October term of the United States supreme court opened to-day. The court met at noon, but owing to the critical condition of Associate Justice Miller, at once adjourned.

At 1:30 p. m. the physicians report no change in the condition of Justice Miller.

Associate Justice Miller is the oldest judge in continuous service upon the bench of the United States supreme court and was appointed by President Abraham Lincoln in 1862 from Iowa. He and Mr. Lincoln were great friends, personally and politically, and it was largely through the efforts of the former that Lincoln was nominated at the national convention in 1860. Justice Miller came to the bench as a profound lawyer and in his twenty-eight years service has added lustre to the national ermine by his strong decisions and legal opinions.

Originally an old whig he early identified himself with the republican party, and greatly through his labors Iowa cast off the democratic party harness in 1854-5, and has become a staunch sister in the republican column. Of all the United States supreme justices none have been more loved and revered than Justice Miller. He is over seventy years of age. He was stricken with paralysis last Friday while on his way to his home.

HALL'S HEROISM.

Hung to the Train While Both of His Legs Were Cut Off.

DAYTON, Ohio., Oct. 13.—Daniel C. Hall, a teamster of this place, in an attempt to mount the platform of a train, missed his footing and fell with his legs under the wheels. In an endeavor to get his legs out of their perilous position and while holding to the platform, his left foot caught between the main rail and that of a switch, and the leg was torn from the socket at the knee. Still clinging to the platform his right leg was thrown under the wheels and, from the knee down, was ground into a shapeless mass. When the train was stopped and he was rescued, he was still clinging to the platform with a tenacious clutch. It was necessary to amputate the right leg below the knee and the left one below the torn ligament. Despite his injuries and loss of blood and the shock, there are chances of his recovery.

HE WAS ALREADY MARRIED.

A Missing Bridegroom is Found With a Wife and Family.

HIS HOUR OF DEATH

Predicted by a Giant Who Dies on Seaboard Time.

SUMNER, Ill., Oct. 13.—William Peters, of Lukin township, died in the morning. He was without doubt the largest man in the country, his weight being 400 pounds. The immediate cause of his death was gangrene of the lower extremities. Thursday he requested that the undertaker order a coffin for him, saying he was going to die at 5 o'clock a. m. Friday; that there were no coffins large enough for him here and one would have to be made.

The undertaker at once ordered one, and it came on the midnight train. It was one of the largest ever sent out, being six feet long, twenty-four inches wide and twenty-two inches deep. Within twenty minutes of the time he predicted he expired. His age was forty-seven years.

STRICKEN SUDDENLY.

Gen. Belknap, Ex-Secretary of War, Found Dead in His Bed at Washington.

WASHINGTON, Oct. 13.—Gen. Wm. W. Belknap was found dead in bed this morning in his room in the Evans building on New York avenue in this city. The room in which he was found joined his office rooms and was only occupied by the general during his wife's absence from the city. Gen. Belknap was seen alive on Saturday night about midnight when he was on his way to his rooms, apparently in excellent health. Mrs. Belknap, who is in New York, has been notified of her husband's sudden death.

Gen. William Worth Belknap was born in Newburg, N. Y., on September 22, 1829. He graduated at Princeton college in 1848 and 1851 he moved to Keokuk, Iowa, where he practiced law. Gen. Belknap served during the war beginning as major and at the close was general. In October, 1869, he was appointed secretary of war. This office he retained during General Grant's second administration. The coroner's jury showed that the general suffered from fatty degeneration of the heart and that the immediate cause of his death was inflammation of the heart.

WASHINGTON, Oct. 13.—The news of the sudden death of ex-Secretary Belknap was received at the war department with genuine sorrow. The department will be closed on the day of his funeral. It will be draped in mourning for thirty days. Acting Secretary of War Grant will issue the official order as soon as the funeral arrangements are perfected.

Mrs. Mary Sloss, wife of Patrick Sloss, died at her home in New Haven, this county, Sunday, of lung fever. The deceased was sixty-three years old and was for thirty-five years a resident of New Haven. She was the mother of five children, Michael F., Margaret, Dennis, Daniel and Julia, three of whom live at home. These children and a husband survive her. Dennis was a former operator in the Wabash office in this city, and Michael F., resides at 421 South Calhoun street, and is the well-known engineer on the Fort Wayne road for twenty years past. The funeral will take place Tuesday morning at 9 o'clock from the St. Johns Catholic church, New Haven.

A MERCHANT SHOT DEAD.

His Lifeless Body Discovered With a Charge of Buckshot.

JACKSON, Miss., Oct. 13.—Tilly M. Lowis, a prominent citizen and merchant of this county, was assassinated last night, while standing in the yard of his residence at Clinton, ten miles west of here. The report of a gun was heard and his dead body was found with a load of buckshot in it. No further particulars could be obtained than this mere statement, and the fact that Clinton had telephoned for bloodhounds to put on the track of the perpetrator of the deed.

Lowis was a well-known and popular citizen, not unknown in politics, and his death will make a sensation. He was forty-eight years old and a man of family.

HIS WORTH RECOGNIZED.

David McKay Engaged to Judge Cattle at the Fat Stock Show.

David McKay, of Brookside farm, who has been exhibiting the Galloway cattle of Hon. J. H. Bass around the country, is in receipt of a letter from Senator LaFayette Funk, of Illinois, who is president of the Fourteenth district state board of agriculture. President Funk says: "I am so pleased with your services at Peoria that I would like to engage you to judge cattle at the coming Illinois fat stock show." It is quite a recognition, and one well placed, too. Mr. McKay will accept.

IT WAS A BURGLAR.

The Graffe Residence on West Jefferson Street Entered at Night.

Last night the residence of the family of the late George W. Graffe, at 26 West Jefferson street, was entered by a burglar, who gained access to a sleeping apartment in the second story by means of a ladder. In this room slept Julian Graffe, a lad. He was awakened by a noise, occasioned by the burglar falling over a chair, and quickly aroused the family. The intruder fled. It would be wise for householders to secure the windows at night.

PLUNGES DOWN A CLIFF

To the Rocks Below—The Deed of a Woman Crazed From the Effects of Liquor.

NEWPORT, R. I., Oct. 13.—Yesterday afternoon at the foot of the forty steps on the cliff, a well dressed woman was found under the influence of liquor. She was taken to the police station, and was released at night. She declined to give her name on account of her husband.

Chief of Police Turner took her to St. Mary's rectory, where she signed the pledge. She begged everybody to keep the matter private for her husband and children's sake. No one seemed to know her.

She claimed that the reason she went to the cliffs was because her husband had refused to let her into her own house. This morning the lifeless remains of the woman were found near the spot where she was discovered yesterday.

Her head and knee were badly cut and it is supposed that she threw herself from the embankment while in a despondent mood. She proved to be the wife of Walter Bussey, a well-known New York man. She was only twenty-nine years of age.

WOMAN KILLED BY BOYS.

They Demand Her Money in Dime-Novel Fashion and Shot Her.

WASHINGTON, Pa., Oct. 13.—Mrs. Elizabeth Sanders, the toll-gate keeper and postmistress, who was attacked by masked ruffians at the door of her home in Toledo, Pa., on Friday night, and shot in the abdomen, is dead.

Shortly after last midnight Constable James S. Hammond arrived in Washington, from Canonsburg, with Ed. Durr, the third supposed party to the crime. He is only sixteen years of age. He was immediately taken to the sheriff's office, where he had made a confession in which he implicated the two fellows arrested yesterday—Bush Durr and George E. Teeters, from Cassville, W. Va., and Wheeling Island, respectively.

Durr said in substance in his confession that the three fellows had been coming along the pike, near Little Toledo, when the rain came up and they got over the fence and crawled under the corn-shocks. Shortly after that they worked their way up to a hay-stack and stood under it until dark. Then Teeters and Ed. Durr went to the house, Bush refusing to go. Teeters knocked at the door of Mrs. Sander's house and when she opened it, pushed the revolver into her face, demanding her money or her life.

The woman held in her hand a lamp, and being somewhat frightened, her hand trembled, knocking the chimney against the revolver and breaking it. The flame went out, leaving the party in total darkness. Teeters tried to strike a match, but was unsuccessful. By this time Mrs. Saunders had procured her revolver and opened fire on the ruffians. The lad who made the confession, hastily left and went to the haystack, and after five shots had been fired, one of which ultimately killed the woman, Teeters joined him. Altogether, it is a clear case of too much dime novel reading of the Jesse James sort.

NINETY IN THE SHADE

At Cincinnati and Two Prostrations From the Heat.

CINCINNATI, Oct. 13.—Sunday was an extraordinary day here. It seemed as if a hot cloud hovered above the city. The heat was oppressive and the thermometer registered 90 ° in the shade. Two prostrations from the heat were reported during the day. This high temperature is all the more remarkable from the fact that it has been so cold for the past fortnight that fires were indespensible. The heat disappeared as suddenly as it came toward night.

BARN BURNED.

Property of James Weaver Swept by Flames—Serious Loss.

Word was brought to the city to-day of a serious fire which swept the barn and out-buildings on the premises of James Weaver, in Lafayette township. A large quantity of hay and grain was consumed and also agricultural implements. The live stock was barely saved. The loss is partially covered by insurance placed with the Ohio Farmers' company.

Say It Is Not True.

WASHINGTON, Oct. 13.—The sensational report which was telegraphed from Washington to a New York newspaper on Saturday concerning the alleged conspiracy of the census officers to make a whole sale falsification of the population of the different states in the interest of the republican party and against the interest of the democratic party is pronounced absurd here by the intelligent men of both parties. Such a wide reaching conspiracy would be an impossibility in this country. It would require the connivance of so large a number of conspirators as to insure a leakage or betrayal somewhere.

The ceremony will be performed by Rev. Eldridge, pastor of Wayne street M. E. church, in the presence of relatives and a few intimate friends. The contracting parties have a host of friends to tender congratulations. Mr. and Mrs. Green will go to housekeeping at once, and will forego the wedding trip. An interesting coincidence of the hymenial contract is that it occurs on the groom's twenty-eighth birthday.

At the residence of Mrs. Louisa Austin, corner of Brackenridge and Webster streets, last Saturday afternoon Pastor Stephen A. Northrop united in marriage Miss Georgia, daughter of Conductor George Hendrix, to Clarence K. Austin, a young brakeman on the Fort Wayne road. Mr. Austin is a respected and promising young man. No trace of her whereabouts was ever gained and she was given up as dead. Saturday night, however, she appeared at her father's residence, a raving maniac. She was taken in, but can give no account of herself or her wanderings. She is very violent and it became necessary to place her in confinement. Nothing has been discovered about her giving the faintest clew to the mystery of her disappearance and long absence.

DAMAGES DEMANDED!

Elizabeth E. Porter Sues the City on Account of Injuries—Ceilings From the Courts.

A voluminous complaint has been filed in the superior court, in which the city of Fort Wayne is made the defendant in a suit for $15,000 damages. The plaintiff, Elizabeth E. Porter, was injured some weeks ago, while selling produce at a stall in the market place. The huge steam roller came snorting like some demon down the crowded market space, caused confusion among the horses, and the team attached to Miss Porter's wagon was terrified among the rest. They backed the vehicle, pinning the plaintiff between the wagon and a market bench, and inflicting injuries which it is believed by her will make her a cripple and invalid for life. Negligence is charged up against the city for permitting the machine to be run through crowded thoroughfares, especially when uncalled for as in the above instance. Swayne & Doughman penned the complaint.

COURT CULLINGS.

Emeline Schiefer, through her attorneys, Colerick & Oppenheim, enters suit for divorce from George Schiefer. Abandonment and failure to provide are alleged. The plaintiff asks for the custody of her son, Lawrence.

The marriage of Mary A., daughter of Mrs. M. J. French, to E. S. Young, the handsome and popular clerk in the the Nickel Plate offices, will take place to-morrow. The young couple will reside on West Wayne street. The bride-to-be was formerly a cashier in the People's store.

We labor and labor, but there is just as much necessity for recreation as for labor. We cannot live without it—not even the laboring man. Exercise is all well enough, but it must be of the right kind. The mind as well as the body wants exercise; but it wants something else, as well as the body. It wants a change; it wants to get into a new channel, to get new life infused into it. This it will rest the limbs to labor; it will rest and strengthen the mind to be diverted. We should lay out our plans for recreation as well as for work. There never was a truer saying than that "all work and no play makes Jack a dull boy."

Down in Raleigh the other day a colored man who had done some work for the city called at the collector's office for his pay. His certificate was O. K.'d, and the auditor called to his clerk to issue a warrant for the colored man, meaning, of course, for the amount due, when, with his eyes bulged out, exclaimed: "For de Lord's sake, boss, don't get no warrant for me. I 'clar ter gracious, I ain't done nothin'."

AMERICAN naval officers who adopted the cholera belt in the tropics find it so beneficial that they often retain it in all latitudes. It is simply a broad land of flannel worn night and day the year around tight about the waist, so as to protect the stomach from sudden changes of temperature. It is an excellent preventive of stomach disorders.

COFFEE ground in an old mill makes better coffee than when ground in a new mill; the older the mill the better. An old mill crushes the berry, while a new mill cuts it. The crushing of the berry releases that which gives out the aroma; the cutting does not do that. In the East (Turkey, etc.) the coffee is bruised to an impalpable powder in a mortar—thus releasing all the essential oil in a berry.

The wedding bells are heard again and they are ringing merrily.

The rain last evening had the effect of making a small attendance at the city churches.

The republicans of Knox and Pike counties have nominated S. D. Weaver, of Knox, for joint senator.

President Harrison spent Sunday at his old home in Indianapolis and left for Washington this morning.

The base ball season in this city is at an end. It is announced that the game yesterday was the last which will be played in this city this season.

There is not a section or a line in the entire bill (the McKinley bill) that will open the market for another bushel of wheat or another barrel of pork.—James G. Blaine.

Hon. C. M. Dawson, candidate for judge of the superior court, P. B. Colerick, for prosecuting attorney and D. W. Souder, for county clerk, on the democratic ticket, have no opposition.

The candidate of the republicans for congressman of this district certainly has a euphonious name—Jaynes Norman Babcock. His postoffice address is Hawpatch, Lagrange county, Ind.

The Philadelphia Evening Telegram, a republican paper, says that "so far as the new tariff was proclaimed to be for the benefit of the workingman, it is a cheat and a lie." So much truth is rarely put into so little space—especially in a republican paper.

Thomas W. Palmer, president of the World's Columbian exposition, in an interview at Chicago, positively stated that he would refuse the handsome salary of twelve thousand dollars per annum, and that he would accept the position for expenses only.

Rev. Northrop, on account of the small attendance at the Baptist tabernacle caused by the rain, did not speak on the subject previously announced by him, "How to Empty Our City Halls," last night, but will do so at some future Sunday evening service. He however, preached a magnificent sermon, urging his hearers to seek Christ as the refuge from the storm of life.

The rumor that an extra session of congress will be held is not looming up with any degree of clearness. Nobody seems to know where the rumor had its origin and no one has any good and sufficient reason to advance for its being originated. The only reason advanced in favor of the extra session is the one which says that the federal election bill can be passed before December if the senators are in Washington to do it. If that be true then the brief time required for the discussion and passage of the measure would not do any damage to the regular session. There would be ample time left in which to dispose of the appropriation bills. No one knows the president's mind, of course, and he may consider an extra session necessary, but he has never told any one so.

The Railroad Reporter of this month has a cut and full account of the life and promotion of George W. Saul, now president of the Chicago and Eastern Illinois railroad. Mr. Saul was formerly general manager of the Fort Wayne, Cincinnati and Louisville railroad in this city. Mr. Saul is thirty-two years of age and the youngest railroad president in the United States.

Judge R. S. Taylor, who is always an entertaining talker, lectured Saturday evening at the rooms of the City department of the Y. M. C. A. on the subject, "The Cultivation of a Literary Taste." He handled the theme in an able manner and interested the audience in attendance. Judge Taylor is a fluent speaker and has the faculty of presenting a subject in such a way that all can understand and profit by his discussion of it. He did so in his lecture Saturday night.

In the debate at the republican county convention Saturday on the question of whether or not to put a ticket in the field, John T. Leach, a republican speaker of considerable prominence and an employe of the Pennsylvania company, was one of the participants and made a strong speech against nominating a ticket. "Whether you nominate a ticket here to-day or not," he said, "I am going to vote for Dan Souder for county clerk. I knew him when he lost his legs and he is deserving of support and it is a credit to any community to elect such men as him to office. I am a republican, but I shall vote for Dan Souder."

Col. C. S. Millard, who was the manager of the Indianapolis car works, which was placed in the hands of a receiver last week, is the gentleman who, in replying to the interview of Mr. John H. Bass on the tariff question during the Cleveland-Harrison presidential campaign, said that if the Mills democratic tariff bill became a law, he would be compelled to close his manufactory and turn the 800 men out of employment. The Mills tariff bill did not become a law, but its substitute, the McKinley tariff, the republican measure, did, and it is a little peculiar, if Mr. Millard's opinions were correct, that on the eve of its passage his great works should fail. It looks very much as if the McKinley bill did it.

The McKinley bill is from beginning to end an exclusively party scheme, deliberately, indecently and irresistibly forced upon the country by a disciplined and terrorized congressional majority, at the behests of wealthy industrialists who, in consideration of this service rendered, have contributed funds and influence for carrying the elections in the interest of the party now in ascendency, or more correctly, of certain party leaders. It will stand upon the statute books as the grossest and most corrupt exercise of legislative power ever perpetrated in the history of the country, and as the signal monument of a point of departure at which wealth and corrupt politics joined hands in alliance for defeating public opinion in the government of the nation.—New York Commercial Bulletin (non-partisan.)

SWALLOWED THE GNAT.

The republican camel has swallowed the gnat. It had hard work to do it, however. The gnat was willing, but the camel took it as a medicine and kicked and struggled, but gulped it down at last as a forlorn hope of saving them from defeat at the polls in November. At their county convention Saturday, by a vote of 104½ to 38½, they passed a motion not to nominate a county ticket and thus practically indorsed the "reform" ticket already nominated.

This decision was arrived at only after a long discussion in which some pretty hot words were passed between the city and country delegates. The majority of the delegates from the country came to the city in favor of nominating a straight republican ticket, but were talked out of it on the streets and at the convention by the city republican leaders who wanted to carry the Michener scheme through which was to do anything and everything to defeat the democratic candidates for the legislature and keep down their vote on the state ticket.

The scene in the convention that preceded the vote on the question of making nominations was a lively one. No sooner had Colonel Robertson finished his speech, after having been elected chairman, than W. H. Baird, of Eel River township, was on his feet with a motion to proceed with the election of candidates for the various county offices. "Ever since I came to town," he said, "I have been importuned here and there not to nominate a ticket. I want a republican ticket, straight, pure and clean. If we only want the offices, let us nominate the democratic ticket and be done with it."

This brought W. J. Vesey, of this city, to the floor and he made a vigorous speech against nominating a ticket, saying it would only divide the republican vote and end in defeat. He was followed by H. C. Hanna, John T. Leach, J. C. Kenaill, Col. D. N. Foster and Judge John Morris, all of this city, and during the debate Mr. Baird arose again and made a vigorous speech, in which he got in some solid whacks at the schemes of the city fellows to run everything their own way. He said the platform of the reform party was diametrically opposed to that of the republican party and that among the candidates on the ticket were some who could not read their own platform. "This reform ticket," he said, "is made up of men who left their party for office and the farmers were not in favor of it. Twenty of the alliances of the county have voted against it, and if you endorse it here to day you will find that the republican farmers of the county will not sanction your action."

J. B. Harper, of this city, made the closing speech in favor of making no nominations and moved to amend Mr. Baird's motion by substituting for it a motion not to nominate a county ticket. By this time many of the farmer delegates had been talked out of their previous opinions and when the motion of Mr. Harper was put it was carried by a decisive vote, which is given above, and so the convention adjourned without naming a county ticket.

What the republicans hope to gain by the movement is the election of the two candidates on the reform ticket, both of whom are republicans. No democrat will allow himself to be deceived by this combination. It means an injury to the state ticket and is an attempt to capture the state legislature. If the republicans are successful in this here in this county and other counties where they are working the same scheme they will at the next session of the legislature at Indianapolis defeat Hon. D. W. Voorhees for United States senator and elect the man of their choice.

Let the democracy throughout the county be on their guard. We have an excellent county, congressional and state ticket in the field and every man on it should be elected. Our candidates for state senator, representatives, congressmen and the various county offices are conceded, even by their political opponents, to be men who are qualified in every way for the offices for which they have been nominated and Allen county should elect every one of them and send the state ticket out of the county with a largely increased majority.

HIS STRENGTH IS IN SUCCESS.

Fine Sketch of Bishop William Taylor, Now in Our City—Dr. Moffat's Sermon.

Bishop Taylor, of Africa, a sketch of whose life is published elsewhere in to-day's Sentinel, spoke at the Berry street M. E. church in the morning, the Taylor university in the afternoon and at the Wayne street church in the evening. His sermons were eloquent and interesting and attended by large audiences. A number of persons were converted at each service and the meetings were productive of great good. Rev. Rees Taylor, son of the bishop who has the largest diocese in the world, himself a world-wide traveler and an eloquent orator, preached in Mr. Driver's church in the morning. His theme was, "Perfection." His three points were Love, Loyalty and Trust.

William Taylor is not a great preacher, but is a man gifted with wonderful power in bringing souls to Christ. He built up a reputation by making a success of everything he undertook. He was born in Rockbridge county, Virginia, and will be seventy years old next May. He was brought up as a farmer and tanner and became a Methodist preacher in 1842. During the gold excitement in California the M. E. church made a request for missionaries to go into that field and Mr. Taylor responded and commenced work in the city of San Francisco in 1849. He preached for seven years on the streets in San Francisco with great success. He went to Europe in 1862, spending seven months in evangelistic work in the British islands. For the next three years he conducted missionary services throughout Australia, Tasmania and New Zealand. He afterwards visited South Africa and converted many of the Kaffairs to Christianity. He next went to the West Indies, visited Australia a second time and spent some time in Ceylon, crossing over to India in 1872, when within four years he succeeded in establishing self-supporting churches in Bombay, Poonah, Jubbulpore, Agra, Calcutta, Madras, Bangalore, Secundarabad and elsewhere. As a result of his labors the South India conference and the Madras conference has been organized. In 1878 he established self-supporting missions in Aspinwall, Callao, Iquequ, Coquimbo, Santiago, Concepcion, Pernambuco and Para. On the 22nd of May, 1884, he was elevated to the episcopal office under the title of missionary bishop of Africa. Going to Central Africa he established a chain of thirty-six mission stations on the Congo, extending 1,200 miles, and 300 miles along the west coast and employing seventy missionaries, who are supported by voluntary contributions. In 1888 Bishop Taylor returned home and has resided in this country ever since—not resting, but going about spreading the glorious news of salvation.

DR. MOFFAT'S SERMON.

The quarterly communion services at the First Presbyterian church yesterday morning were of an interesting character. Four persons were taken into full membership with the church and after the sermon the sacrament of the Lord's supper was administered. The sermon of Rev. Dr. Moffat was appropriate to the occasion and was preached from the text, "My meditations of Him will be Sweet; I will be Glad in the Lord."

The Son of God, he said in substance had not come to earth to seek riches; He enjoyed unbounded wealth, the richest treasures of Heaven, in the home He had left. He did not come to mingle with men to enjoy titles of distinction and honor and power; He was the Son of God, the Prince of Heaven, and as such had higher honors than it was ever possible to win upon this earth. He did not come to enjoy the pleasures of the world; He had unending pleasures assured Him in the paradise of Heaven. Why then did He come to earth? What was the motive that prompted God to send His dearly beloved Son to earth to suffer trials and persecution and death at the hands of men?

Christ was born in obscurity. The wife of a poor carpenter brought Him as a son of man, into this world. He lived His babyhood, His boyhood, His young manhood much the same as the other poor children of His time, and when He arrived at man's estate followed the profession of a carpenter, laboring with His father in his daily toils. His life in infancy, in boyhood, in young manhood, was a model one, and when at the age of thirty, He began preaching, He was the most perfect type of manhood ever seen upon this earth. The doctor followed the Savior of men in His earthly career, told of His sacrifices in the wilderness, His temptations by the devil, His preaching to the people, His wonderful cures of the diseases of men, His miracles, His matchless sermons, His agonizing death upon the cross and His appearance after crucifixion to His apostles. All this he said Jesus had passed through, not that He might satisfy a worldly ambition, for He had honors in Heaven far above these, but that He might save men and women from the consequences of their sins. He did this for the love He bore for men and that we might enjoy with Him the bliss of paradise throughout the endless ages of eternity. Such love demanded our love in return. We should love God because God first loved us, and continuing the speaker said many other things, of which the above is only an imperfect skeleton, urging his hearers to lead Christian lives, that it would be interesting here to quote. The sermon was a grand one and abounded in rich thoughts appropriate to the communion services which followed.

Sons of Veterans.

St. Joseph, Mo., Oct. 11.—The Sons of Veterans had made arrangements to participate in the reception to President Harrison, when State Commander Kline ordered them to drop the reception. Kline says the president's trip is clearly political, and as the organization purported to be non political the Sons of Veterans should keep hands off. A St. Louis camp which was making preparations for a reception, was also ordered to desist.

The question has been asked, "In what respect are St. Patrick's Pills better than any other?" Try them. You will find that they produce a pleasanter cathartic effect, are more certain in their action, and that they not only physic but cleanse the whole system and regulate the liver and bowels. Dyspepsia

Makes the lives of many people miserable, causing distress after eating, sour stomach, sick headache, heartburn, loss of appetite, a faint, "all gone" feeling, bad taste, coated tongue, and irregularity of the bowels. Dyspepsia does not get well of itself. It requires careful attention, and a remedy like Hood's Sarsaparilla, which acts gently, yet efficiently. It tones the stomach, regulates the digestion, creates a good appetite, banishes headache, and refreshes the mind.

Distress After Eating — Sick Headache — Heartburn — Sour Stomach

"I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, or did me little good. After eating I would have a faint or tired, all-gone feeling, as though I had not eaten anything. My trouble was aggravated by my business, painting. Last spring I took Hood's Sarsaparilla, which did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced." GEORGE A. FOR ❄ CHRISTMAS ❄ AND ❄ NEW ❄ YEARS.

FRUIT HOUSE PRICES.

In many instances there has been little change in prices, especially in staple goods. The sugar market has been steady, the clique who has had hold of it being afraid to advance prices. In consequence of the tariff agitation this was not so last year where in one instance inside of 30 days they sank prices upwards 3c. per pound.

Coffee A. Standard, 7½c. Coffee C. Extra Yellow, 6c.
Granulated, Crushed and Powdered, 7½c.

The Tea market in second grades has been much higher; these qualities have advanced over 5c. In the first qualities there has been no change; fortunately we had a large supply before the advance which enabled us to continue to sell to our customers at old prices. Our motto in dealing in Teas, like other goods, is to buy in large quantities and we sell direct to the consumer, thereby saving to our customers the profits of the jobber and speculator, which is not less than 10 and 12c. on the pound. This is the secret in the success of our Tea trade trade-large sales and small profits.

Young Hyson Tea, good, 20c.; choice, 30c.; best, 50c. lb.

COFFEE, COFFEE—Rio, Mocha, Java and Roasted Coffee.

There are indications of a great decline in coffee the next two months as receipts in Rio and Santos are very large, and this being shipped to New York will compel the clique who has had hold of the market to let go, and in consequence the market will go down. Prices remain as last quoted:

Best Rio Coffee, 23c. lb. Choice Old Govt. Java, 28c. lb.
Best Green Mocha, 30c. lb. Best Roasted Rio, 25c. lb.
Best Roasted Java, 33c. lb. Best Roasted Mocha, 35c. lb.

Durham Coffee in Packages, 25c. Levering's Coffee, 25c. lb.
Cowlava Coffee 1lb. pack 25c.

The Christmas trade in toys and presents promises to be large this season, and in consequence of such a demand we have laid in an immense supply of all kinds of toys and fancy goods suitable for presents for old and young. They are too numerous to mention them in detail, but we have dolls of all kinds and sizes from 10c. to 6ft up to the $1.50 dressed doll. Fancy plush albums, very nice presents they make, and always acceptable, from 25c up to $2.50, and 75c and $1.00 albums are an exceedingly great bargain. Then we have the toys. Iron toys, wooden toys, such as guns, birds, dogs, cats, tigers, elephants, chickens, Noah's arks, block houses, games, picture books, dinkietoys, violins, toy guns, toy pistols and Christmas trees, candles and Christmas tree ornaments of every variety, and some very beautiful ones from 1c up to 25c each. MR. JOHN CHRISTEN

Gives His Reasons For Selecting the Tabor Tract as the Fair Site.

John Christen submits an opinion favoring the Tabor tract as the most desirable location for the exposition site. He says:

To the Editor of THE SENTINEL.

A few words might be said about the proper location for the exposition buildings for the benefit of all citizens and business men. My idea is that if the association could get a site for nothing it would not be proper to take it, if it is not in the proper place. So, therefore, I see the only place is the Tabor tract providing it can be had, and my reasons are as follows:

1st. It is the nearest to the city and a great many can walk to it as the sidewalks over the Lakeside are and will be in excellent condition, and a great many people cannot afford to take their family of five or six and pay 25 or 30 cents street car fare and 25 cents each to go in the fair grounds.

2nd. There will be an electric street car line running over through Lakeside to the fair grounds, whether the Taber's place be used or not, so if held elsewhere, where the almost car has to be built, it would not pay the investment to run the cars only when the fair grounds are used.

3d. It is away from the railroads, where the people must go through the town if they want to go to the fair grounds. At the old grounds, west of the city, the people are unloaded by the thousand and never come into the city. Don't you see that is no benefit for the business men, as most of the stockholders are business men?

4th. There could be a foot bridge built over the river east of the city and will be still nearer for all the people living east and southeast of the city.

5th. A straight road from Columbia street out and a fine drive on both sides of the land.

6th. It is the most beautiful of all, the land has a nice high woods that can be fixed up to a beautiful grove. It has also a few acres of low ground that can be turned into a beautiful lake, combined with the Lakeside three lakes, making the four lakes a nice sheet of water, if it is properly arranged. So by having the exposition building, race track, grove and lake combined together, then you will have everything necessary. By doing so the fair association need not be ashamed of advertising their grounds any time during the summer for excursions to come here and find everything necessary for a pleasure resort, and in case of rain they will have a large building to go in and amuse themselves the balance of the day. Now all few words might be said about the land. It is an expensive piece of ground, $50,000 cash for 160 acres, if I am not mistaken. The question is, could it be bought, and use about 110 acres for the purpose, and lay out fifty acres in half-acre lots, and sell them for about $500 each, and realize $25,000 out of it, as I don't believe in putting $15,000 or $20,000 buildings on somebody else's land, by leasing it. Now, stockholders, consider the matter over before you vote for a site, as this is a matter for all time, not a few years.
